

BOSCH

Invented for life

CPB 1002 A Power supply bracket for panel housings

Functions

- For the modular panel housings:
 - HCP 0006 A
 - HBC 0010 A
 - HBE 0012 A
- For accommodating one or two power supplies
- The first power supply provides power to the control panel. The second power supply covers the increased current requirements for notification appliance zone lines (NAC) that are connected to an NZM 0002 Notification appliance zone module.
