

LB7-UC06V and LB7-UC06VR ABS Cabinet Loudspeakers 6 W

BOSCH
Invented for life

Introduction Announcement

► **Availability date**
10 May, 2018

Product Description

This Cabinet loudspeaker is suitable for speech and music reproduction and is applicable for use in public address systems. The ABS rectangular cabinet is made from ABS and has a metal grille front.

The LB7-UC06V is provided with a volume control to adjust the requested volume locally.

The LB7-UC06VR has both a volume control as well as a built-in volume override relay. The built-in override relay allows emergency calls to be broadcasted at a preset level, independent of the local volume setting.

Features / benefits

- Suitable for speech and music reproduction
- Compact sized ABS cabinet with metal front grille
- Two knock-out holes, at the top and bottom of the cabinet for easy entry of cable or conduit
- Integrated volume control
- Built-in volume override relay (LB7-UC06VR only)
- The cabinet has provisions for internally mounting the optional line/loudspeaker supervision board
- Easy and hidden wall-mounting by use of two screws delivered with the product.
