VARIO2
Single and Multi Panel White Light Illuminators

rayTEC

VARIO Interchangeable Lens System

Angle of illumination from 10 - 180˚ can be easily, quickly and precisely adjusted by changing the VARIO holographic lens insert to match the specific camera field of view.

VARIO Remote Control (optional)

Allows set up quickly and safely from ground level and provides access to advanced set up features. Reduces both cost and time of installation and commissioning.

Hot-spot Reduction Technology (HRT)

The HRT system delivers a highly diffused, elliptical beam shape to deliver more light where it's needed most. Also prevents overexposure of foreground objects.

Multiple Variants

VARIO2 illuminators are available in a range of different sizes to suit different applications and requirements.

5 YEAR WARRANTY

All Raytec luminaires are provided with an industry leading 5 year warranty and have an expected useful life in excess of 10 years. See Warranty Statement for details.

5 YEAR WARRANTY

Bracketry	Adaptive illumination mounting bracket included				
Country of Manufacture	United Kingdom				

Integrated Command and Control Technology

| Integrated Standard Features	• Power adjust from 20-100%
	• In-built photocell for automatic on/off operation
	• Photocell following output
	• Photocell sensitivity adjust
	• LED status indicator provides status on performance of the unit
	• LED status indicator on/off
	• Disable programming mode
Advanced Features (accessed via VARIO remote control)	• Timer function (up to 30 mins)
	• Telemetry control
	• Remote dimming
	• Restore factory default settings
	• Optional PIN to lock in settings and limit access
	• Remote Control can be disabled for improved security
