Infra-Red short, medium and long range Illuminator

rayTEC<sup>®</sup>

## Simple and Secure

VARIO2 in it's simplest form, VARIO2 Lite has been specifically designed for applications which require core functionality only, for easy set-up and added security.

## High Performance

VARIO2 Lite provides all the performance of the standard VARIO2 products; with distances of up to 500m (1640ft) of Infra-Red illumination.

## VARIO Interchangeable lens system

Angle of illumination from 10 - 120° can be easily, quickly and precisely adjusted by changing the VARIO holographic lens insert to match the specific camera field of view.

## Hot-Spot Reduction Technology (HRT)

The HRT system delivers a highly diffused, elliptical beam system to deliver more light where it's needed most. Also prevents overexposure of foreground subjects.

## 5 YEAR WARRANTY

All Raytec luminaires are provided with an industry leading 5 year warranty and have an expected useful life in excess of 10 years. See Warranty Statement for details.
